[Docket No. RM93–4–000]

Standards for Electronic Bulletin Boards Required Under Part 284 of the Commission's Regulations

Issued July 28, 1995.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Proposed rule; Notice of public conference.

SUMMARY: The Commission has required interstate natural gas pipelines to provide certain information about capacity, including information about released capacity, on Electronic Bulletin Boards. In the final rule in this proceeding, the Commission adopted the recommendation of Working Groups to require downloads of capacity release

information through files conforming to standards for Electronic Data Interchange. The Commission is now convening a public conference to consider the current state, and future development, of electronic communication in the natural gas industry.

DATES: Public conference: September 21, 1995; requests to participate: September 1, 1995.

ADDRESSES: Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426.

FOR FURTHER INFORMATION CONTACT:

Michael Goldenberg, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, (202) 208–2294.

SUPPLEMENTARY INFORMATION: In addition to publishing the full text of this document in the **Federal Register**, the Commission also provides all interested persons an opportunity to inspect or copy the contents of this document during normal business hours in Room 3104, 941 North Capitol Street NE., Washington DC 20426.

The Commission Issuance Posting System (CIPS), an electronic bulletin board service, provides access to the texts of formal documents issued by the Commission. CIPS is available at no charge to the user and may be accessed using a personal computer with a modem by dialing (202) 208–1397. To access CIPS, set your communications software to use 19200, 14400, 12000, 9600, 7200, 4800, 2400, or 1200 bps, full duplex, no parity, 8 data bits, and 1 stop bit. The full text of this document will be available on CIPS in ASCII and WordPerfect 5.1 format. The complete text on diskette in WordPerfect format may also be purchased from the Commission's copy contractor, La Dorn Systems Corporation, also located in Room 3104, 941 North Capitol Street, NE., Washington DC 20426.

Notice of Public Conference

July 28, 1995.

Take notice that a public conference in this proceeding will be held on September 21, 1995, in the Commission Meeting Room, 825 North Capitol Street NE., Washington, DC 20426. The conference is to consider the current state, and future development, of electronic communication in the natural gas industry.

In Order No. 636, the Commission required interstate natural gas pipelines to provide certain information about capacity, including information about released capacity, on Electronic Bulletin

Boards (EBBs).¹ The Commission subsequently instituted a process to develop standardized procedures for capacity release information. The standards were developed by Working Groups consisting of representatives from all facets of the natural gas industry and other interested parties such as third-party bulletin board operators and computer and software firms. In Order No. 563, the Commission adopted the recommendation of the Working Groups to require downloads of capacity release information through files conforming to standards for Electronic Data Interchange (EDI).²

The Working Group³ has continued to further refine the capacity release download files. The Working Group also has begun to develop electronic communication standards in other areas. The Working Group's nine highest priority data requirements, in order of priority, are nominations, allocated gas flows, imbalances, gas flow at metered points, transportation invoices, pre-determined allocation methodologies, gas payment remittance statements and gas sales invoices, and uploads of capacity release prearranged deals. Members of the natural gas industry also have formed a Gas Industry Standards Board (GISB), whose purpose is to develop standards for electronic information exchange. The Working Group has transferred ongoing maintenance of the capacity release EDI data sets to GISB.

Members of the Commission intend to participate in the public conference. The Commission is interested in hearing industry views about: the current state of EBB operation and the capacity release downloads, including any third-party services being provided to supplement the pipeline EBBs; whether standards should be developed for EBBs (as opposed to file downloads and uploads); the progress being made in standardizing non-capacity release information, including the time-table for completion of standards; whether

additional standardization is necessary to facilitate more robust capacity trading; whether the Working Group priorities are acceptable; and how the Commission should be involved in this process. The Commission also is interested in receiving comment on GISB's current and future role in developing standards and on the structure of the relationship between GISB and the Commission.

Any person who wishes to make a formal presentation to the Commission should submit a request to the Secretary of the Commission no later than September 1, 1995. Each request should include the time anticipated for the presentation and any special equipment requirements. Every effort will be made to accommodate requests to make presentations, but, depending on the number of requests received, the Commission may have to limit participation. To provide a more productive conference, the Commission encourages interested parties to coordinate their efforts and choose one spokesperson to make a statement on behalf of the group. After reviewing the presentation requests, a subsequent notice of the conference presentation schedule will be issued.

If sufficient interest is shown, the Commission will attempt to arrange for broadcast of the conference in the Washington, DC metropolitan area or nationally. Those interested in the local or national television broadcast should call The Capitol Connection at (703) 993-3100 no later than September 7, 1995. Requests from viewers outside of Washington, DC, should be directed to Julia Morelli or Shirley Al-Jarani.

All questions concerning the format of the conference should be directed to: Michael Goldenberg, Office of the General Counsel, Federal Energy Regulatory Commission, Room 4120-B, 825 North Capitol Street NE., Washington, DC 20426, (202) 208-2294.

By direction of the Commission.

Linwood A. Watson, Jr.,

Acting Secretary.

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR part 1) that provide guidance under sections 170(a), 170(f)(8), and 6115 of the Internal Revenue Code of 1986.

Sections 170(f)(8) and 6115 were added to the Code by sections 13172 and 13173 of the Omnibus Budget Reconciliation Act of 1993, Pub. L. No. 103-66, 107 Stat. 455, 1993-3 C.B. 43. Temporary regulations (TD 8544) and a notice of proposed rulemaking by cross-reference to temporary regulations under section 170(f)(8) were published in the **Federal Register** for May 27, 1994 (52 FR 27458, 27515). The temporary and proposed regulations primarily address contributions made by payroll deduction and a donor's receipt of goods or services with insubstantial value. A public hearing was held on November 10, 1994. On March 22, 1995, the Service released Notice 95-15, which was published in 1995-15 I.R.B., dated April 10, 1995. Notice 95-15 provides transitional relief (for 1994) from the substantiation requirement.

Explanation of Statutory Provisions

Section 170(a) allows a deduction for certain charitable contributions to or for the use of an organization described in section 170(c). Under section 170(f)(8),
